Lifespan Technology Offering Seamless Transition of ITAD Needs to Arrow Electronics Customers

July 18th, 2019 (Markham, ON) – Lifespan Technology extends its services and resources to all former Arrow Electronics customers and partners amidst the recent announcement the former company will be winding down its IT asset disposition business.

In light of Arrow's statements that it has mobilized to cease operations as a personal computer and mobility asset disposition business with complete closure by the end of 2019, Lifespan is offering Arrow's former partners and clients a new frontier of IT Asset Disposition service. With over 15 years as a preferred ITAD partner to global brands, well known corporate entities and government departments, Lifespan's innovative approach to data destruction, sanitization, re-marketing, and recycling is recognized by Gartner and approved by other certifying authorities.

Lifespan is also a wholly owned subsidiary of Troxell-CDI who market refurbished technology to various end-user markets. Troxell-CDI is a dominant player in the resale of refurbished and recertified IT equipment of North American K-12 education system. The combination of Lifespan and Troxell-CDI provides our clients with a well-respected, experienced ITAD partner who has a direct line into the refurbished IT end-user market.

Lifespan pledges to offer new partners and customers a complete guarantee of a higher value of service with no change to SLAs, seamless continuity of current projects and a streamlined process of transition with the utmost attention and sensitivity to your ITAD requirements. We are a better and safer option to your current provider, allow Lifespan to get the job done right.

"With Arrow Electronics' decision this week to end its asset disposition operations, we invite their former customers to know that we have the proven capacity, experience and methods to ensure a smooth transition of their ITAD requirements," said Lifespan Vice President of North American Sales, Jim Drohan, "Our capabilities combine a comprehensive, enterprise-wide ITAD program to achieve cost-effective, efficient processes that maximize the value of asset returns, and eliminate any risk associated with precious data and the environment. We encourage any clients and partners of Arrow Electronics to contact us to assist them in providing top notch services and solutions to their current and future ITAD needs."

If you are in the search for a new ITAD partner, talk to us about how we can take over your existing Arrow contract without changing the service level agreement or cost. Contact us at info@lifespantechnology.com or call us at 1-888-720-0900 and let's get you transitioned with the leading ITAD provider in North America, Lifespan.
