POWERED BY TROX

Trox (formerly Troxell-CDI) was created from the combination of two EdTech leaders, CDI Technologies and Troxell Solutions. Trox is now the nation's leading end-to-end education technology solution provider and serves more than 27 million students across North America each year. The company brings the EdTech Ecosystem to its customers – giving them access to an unmatched selection of products and services.

Lifespan has been providing ITAD solutions to Corporations & Government departments across North America for 20+ years.

Consider Lifespan as your one-stop ITAD partner. Our innovative end-to-end solutions include asset retirement, data destruction, tracking, and management. We meticulously plan and streamline the entire ITAD process, so you don't need to run after multiple vendors.

Do you require a continual asset retirement program for multiple locations? Or just an occasional pick-up of old IT assets from one office? Just call Lifespan. We will create a custom asset retirement solution for your organization.

Data Security + Destruction

Lifespan is a responsible IT Asset Disposition leader with world-class expertise and tools to handle 100% secure Data Security, Destruction and Sanitization for all types of data storage devices.

Value Recovery

Maximize returns on your unwanted technology products. With a remarketing partner like Lifespan, it's possible. Our IT Remarketing service is a revenue-sharing program that's designed to ensure you get the maximum return.

Environmental Stewardship

Lifespan's commitment to environmental compliance and risk minimization for our clients is reflected in our R2 Certification. This accomplishment strengthens Lifespan's position as a leader in responsible recycling services, environmental protection and international legal compliance.

Our Certifications:

| Microsoft AUTHORIZED Refurbisher | AAA | Markham, ON Irving, TX | R2 | Markham, ON Irving, TX | ISO 14001 | Markham, ON Omaha, NE | ISO 9001 | Markham, ON | OHSAS 18001 | Markham, ON Omaha, NE |

Environmental Stewardship

Better Planet. Brighter Future.

Environmental stewardship is the responsibility for environmental quality shared by all those whose actions affect the environment. In 2005, EPA laid out a vision for environmental stewardship recognizing it as a means to a more sustainable future.

R2 Certification

Lifespan's commitment to environmental compliance and risk minimization for our clients is reflected in our R2 Certification. This accomplishment strengthens Lifespan's position as a leader in responsible recycling services, environmental protection and international legal compliance.

R2 is a globally accredited, third-party audited certification program of SERI, and is a premier global environmental, worker health and safety standard for the electronics refurbishing and recycling industry.

R2 2013 | **Markham, ON Irving, TX**

Our Process

We collect, pack and transport products to our secure facilities for full reporting. Hardware is wiped clean of any data and refurbished. Our methods follow top environmental and security standards. Products are recycled and segregated. Lifespan provides IT Asset Disposition services for all IT products found in the business environment:

- ▶ Desktop Computers and Laptops
- ▶ Servers

Data Security and Destruction

100% Protection. 100% Secure.

Lifespan is a responsible IT Asset Disposition leader with world-class expertise and tools to handle 100% secure Data Security, Destruction and Sanitization for all types of data storage devices:

- ▶ Magnetic Hard Drives
- ▶ Solid State Hard Drives (SSD)
- ▶ Smart Phones

- ▶ Tablets
- ▶ Computer Tapes
- ▶ USB's

- ▶ Flash Memory
- ▶ CDs
- ▶ DVDs

AAA Certification

Lifespan's processes for data destruction meet the National Association for Information Destruction (NAID) AAA Certification requirements and comply with NIST 800-88, the current US Government standard for data destruction produced in conjunction with the Department of Homeland Security (DHS).

NAID certifies that a company meets all of the government, and industry best practice, standards. These standards include background checks of employees, data security training, technology and systems used, facility security, procedures for data handling and destruction, and all documentation for services provided.

AAA NAID CERTIFIED

Irving, TX

Choose your Method

On-Site Destruction
A physical destruction device is brought to your location. You watch every step with real time destruction analysis. A destruction report with serial #'s is provided on site. You receive a certificate of destruction and sanitation.

Ship to Our Facilities
Lifespan's Logistics Management team uses efficient resources – right from packing at your end to our facility for processing, swiftly and securely. You receive a certificate of destruction and sanitation.

Value Recovery

Get More From Retired Assets.

Maximize returns on your unwanted technology products. With a remarketing partner like Lifespan, it's possible. Many unwanted technology assets still have remaining life and value, so our first priority is to help you recover some of your investment in these assets. Our IT Remarketing service is a revenue-sharing program that's designed to ensure you get the maximum return.

Lifespan's Remarketing and Investment Recovery Services

Our dedicated remarketing team knows the pulse of the IT equipment resale market. We have local, regional, national, and international wholesale/retail channels for all types of used technology.

As a Microsoft Authorized Refurbisher, we re-certify I.T. equipment and install new, genuine Microsoft licenses, increasing the value returned to your organization.

I.T. Resale

Get higher investment returns even after your technology products' active lifecycle ends. Lifespan's IT Remarketing service assures better value for your retired IT assets. We have local, regional, national and international wholesale channels for your used technology. Lifespan's expert ITAD team, combined with our wide network, gives you the following advantages:

▶ Lower cost of transportation and logistics across North America

▶ Lower carbon footprint

▶ 100% data security

▶ Dedicated client representative to address your requirement

▶ Effective hardware resale and investment recovery programs
