Disposition
Experts

Who We Are

Lifespan, with a proven expertise in IT Asset Disposition since 2002, is a preferred ITAD partner to global brands, well known corporate entities and government departments. Our innovative approach to data destruction, sanitization, re-marketing, and recycling is recognized by Gartner and approved by other certifying authorities.

Lifespan is a wholly-owned subsidiary of TROX, the nation's leading end-to-end education technology solution provider and serves more than 27 million students across North America each year. This gives us the advantage of a large end user market for many of our refurbished assets.

Our capabilities combine a comprehensive, enterprise-wide ITAD program to achieve cost-effective, efficient processes that maximize the value of asset returns, and eliminate any risk associated with precious data and the environment.

ITAD Solution

Consider Lifespan as your one stop ITAD partner. Our innovative end-to-end solutions include asset retirement, data destruction, tracking, and management. We meticulously plan and streamline the entire ITAD process, so you don't need to run after multiple vendors.

Do you require a continual asset retirement program for multiple locations? Or just an occasional pick-up of old IT assets from one office? Just call Lifespan. We will create a custom asset retirement solution for your organization.

Our Philosophy

In everything we do, our focus remains single-minded, We do ITAD right.

Data Security

Value Recovery

Environmental Stewardship

Lifespan Advantage

Data Destruction

We ensure secure data erasure/physical destruction in a cost-effective and environment-friendly manner.

Remarketing

Rest assured you're reselling only your equipment, not your data. Expect better value returns with Lifespan.

Logistics

We pack and transport your IT assets efficiently to their final disposition in the most cost-effective manner.

Data Security

With Lifespan, your sensitive data is highly protected and securely destroyed, throughout the ITAD process.

Recycling

The R2 and ISO 14001 certifications reflect our commitment to follow all environmental regulations.

Holistic ITAD

Right from assessment to disposition, Lifespan's expert team supports you through every stage of the ITAD program.

Our Certifications

Our IT Asset Disposition efficiencies and work ethics have won recognition and qualified for a wide range of credentials by employing safe, responsible technology for asset destruction, reuse, and recycling.

What Our Clients Say

“Lifespan has been an able ITAD partner and when it comes to Data Security, they take utmost care and meet all our compliance requirements.”

DIRECTOR, COMPLIANCE, Regional Bank

“Lifespan provided us an excellent and competitive proposal for ITAD. The entire process went on-time with no issues at all. A BIG thanks to Lifespan. We look forward to a continuing partnership with them.”

TECHNOLOGY DIRECTOR, Insurance Major
